2323 - SPECIALIST STATEWIDE SERVICE

Ms SONIA HORNER (Wallsend) :

That this House:

Every year around Australia 1000 adolescents and young adults are diagnosed with cancer.

The Queensland government provides \$0.9 million in funding and the Victorian Government provides \$0.63 million in matched funding for Youth Cancer Services per annum. By comparison, the NSW government provides only \$0.01 million in funding for Youth Cancer Services.

Calls on the Health Minister to match the Federal Government's investment to NSW of \$1.1 million per annum, to ensure the effective delivery of a state-wide Youth Cancer Service.
