2458 - FLOOD MITIGATION FOR WALLSEND

Ms SONIA HORNERY (Wallsend):

That this House:

Notes that the Wallsend community requires urgent flood mitigation works to prevent the type of catastrophic floods which occurred in 2007 and 2015.

Notes that Newcastle City Council was reliant on a grant from the Office of Environment and Heritage for flood mitigation, which was not forthcoming.

Urges the Minister for Environment and Heritage to commit to working with Newcastle City Council and deliver flood mitigation works to Wallsend.
