**Notice of Motion**

**2263 - WALLSEND AGED CARE FACILITY**

**Ms SONIA HORNER ( Wallsend ):**

That this House:

Notes that the 2017 Australian Aged Care Quality Agency audit of the Wallsend Aged Care Facility found that living environment and catering, cleaning and laundry services did not meet the Agency's standards.

Notes that the Agency found staffing shortages to be a key reason for these shortfalls.

Urges the Minister for Health to increase staffing levels at Wallsend Aged Care Facility as a priority in order to address the identified shortfall.
